SUMMARY

Full-stack web developer leveraging mainframe developing background to build a more intuitive user experience on the web. Recently completed a full-stack development Certificate through the University of Adelaide, with newly developed skills in HTML, JavaScript, CSS, React.js, Node.js, Express.js, MySQL, RESTful APIs, OOP, and responsive web design. Known as an innovative problem solver passionate about developing apps, with a focus on web design and development. With each project, I aim to best engage my audience for an impactful user experience.

I worked on a team of four to develop a webpage Day maker app that makes the user's day better with some news and jokes with the categories the user chooses. I am excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.

TECHNICAL SKILLS

Languages: JavaScript, CSS, HTML, Nodejs, ReactJs, Vuejs.
Applications: GitHub, Git, Heroku.
Database: MySQL, NoSQL, GraphQL MongoDB.
Tools: jQuery, Bootstrap, Express.js, Handlebars.js, RESTful APIs.

PROJECTS

Day Maker | GitHub: **https://github.com/gharduim/Day-maker | Webpage**:
https://gharduim.github.io/Magpies-Project-1/
- Summary: That makes your day better with news and jokes and you can choose which categories you like.
- Role: Full stack developer
- Tools: HTML, CSS, JavaScript, Uikit, API.

Weather App | GitHub: https://github.com/gharduim/weather-dashboard | Webpage:
https://gharduim.github.io/weather-dashboard/
- Summary: Weather app that provides current and future weather forecasts in cities.
- Role: Full stack developer
- Tools: HTML, CSS, JavaScript, jQuery, API, Bootstrap.

Coding Quiz | GitHub: **https://github.com/gharduim/Coding-Quiz | Webpage**:
https://gharduim.github.io/Coding-Quiz/
- Summary: Tests the viewer's coding knowledge in diverse languages using virtual flashcards.
- Role: Full stack developer
- Tools: HTML, CSS, JavaScript, jQuery.

EXPERIENCE

Full Stack Developer, Freelance   **Feb 2022 – Present.**

-Developing front-facing and internal user interfaces using JavaScript, and Typescript.
-Using object-orientated principles to help create well-structured frontend and backend code
-Implementing new features across various codebases using Vue3, React
-Writing tests to ensure new features function as intended
-Ensuring HTML is semantic and well structured
-Experienced with Postgres, MongoDB, MSSQL and MYSQL.
